CORE COMPETENCIES

Medical Transcription

24/7 off-site transcription for multi-site health systems, billed on auditable VBC counts.

Medical Coding

CPT, ICD-10, HCPCS and CDT, checked before submission.

Billing & Revenue Cycle

Claims, payment posting, follow-up and denials.

Eligibility & Prior Authorization

Benefits checks, prior auth and payer phone work.

Health Information & Documents

Document preparation, indexing and records intake.

Healthcare Technology

Speech recognition, IVR and workflow systems on AWS GovCloud.

WHY GRIDLINE

1. Speech recognition drafts each report. A U.S. editor verifies it against the audio and releases it.
2. Patient, author, title and facility are checked before upload to prevent wrong-chart errors.
3. Turnaround, line counts and accuracy are reported by site and author, straight from job data.
